- Conceals waste from all weather conditions

Multiple Applications

- Suit single or or dual bin placement
- Extended pole option is ideal for concreting into any location
- Base plate option is easily mounted to existing concrete or paved areas
- Wall mounted options available

SECURITY BIN STAND

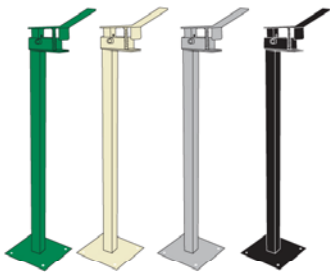

SULO security stands are manufactured from hot-dipped galvanised steel, ensuring quality and durable products for the Australian market. SULO stands are corrosion resistant and ideal for any location, including coastal areas. Key features of a SULO stand include the steel locking plate, the lid restrictor and the spring loaded locking mechanism.

Fixing options

- **Base Plate**
 - Allows the stand to be fixed onto existing concrete or paved areas. This option is available to suit 120L, 140L and 240L bins.
- **Pole**
 - Allows the stand to be fixed into new concrete. This option suits all sized bins.
- **Wall Bracket**
 - Allows the stand to be fixed to an existing wall. This option suits all sized bins

Colours

- **Galvanised Steel**
 - All stands are galvanised for maximum corrosion resistance, including all powder coated options
- **Powder Coated**
 - A variety of colours are available* including Heritage Green, Classic Cream, Woodland Grey and Black Satin

*Powder coated stands are made to order and minimum quantities may apply.
